1. There were no aircraft at the Rotscherlinda (N 53/Z 32) airfield, which was, however, guarded on 5 December 1949.
2. Eight fighters with radial engine and red propeller hub were parked at the field at 10 a.m. on 13 December 1949. According to a farmer, the planes had come from Brandenburg (N 53/Z 23). A detail of one officer and eight men was allegedly stationed at the field. The 300-acre landing field was to be expanded.

25X1A Comment:

25X1X

25X1X The existence of the airfield was reported in October 1949. * The field was then also occupied by eight fighters but by no large ground unit. It is assumed that the field is being used as a training ground by the fighter units stationed in Brandenburg.
